

Databases I, Winter term 2016-2017
Milestone 3 Conventions

In this milestone, you are required to follow the following conventions:

- a) Table names should start with a capital letter and should be Plural. e.g.: People and **NOT** Person, Countries and **NOT** Country.
- b) If the name of the table is more than one word, they should be separated by _ e.g. Normal_User **NOT** NormalUser.
- c) Relations between two tables should be done as table1_relationName_table2 and the order of table1 and table2 will be according to the alphabetical order of the tables e.g.: Company_existsIn_Country and **NOT** Country_has_Company
- d) Names of the columns should be lower case, singular and separated by an underscore if it is more than one word e.g. name, first_name and **NOT** firstName
- e) Order of the columns in any table will be as follows:
 - 1. Primary key(s)
 - 2. Attribute(s)
 - 3. Foreign key(s)

e.g.: People(id,name, country_id) and **NOT** People(name,id, country_id).
